

*Two NEW GRASSES
for 2018*

SHENANDOAH

4-5' H

Shenandoah is a selection of our native prairie switchgrass grown for its burgundy colored foliage and pinkish flower spikes. This grass has especially nice fall color with the grass blades tinted with red and orange. Drought resistant/drought tolerant plant. **Z4**

SMOKE SIGNAL (LITTLE BLUESTEM)

2'H

NEW! For a fabulous show all summer and into fall, look no further than 'Smoke Signal' Little Bluestem. ITS, blue-green foliage blends into scarlet and deep red tones in late summer. It then ages to a deeper red-purple into the fall. The color is intense and showy, and its habit is slender and refined. Little Bluestem is a low-maintenance, no-fuss plant that combines toughness and beauty. Put in poor soils and let it be—you'll get a beautiful show. As with other Little Bluestem, it supports pollinators and provides winter food, nesting material, and cover for birds. **Z3**
