

20TH ANNIVERSARY

COME HELP US CELEBRATE at OUR MAY 18-19 OPEN HOUSE

2019 will be our 20th year our Farm has been open to the public. This milestone has only been possible because of you – our terrific loyal customers. THANK YOU! For this season, we will have the largest selection of sun and shade perennials ever offered – there will be THOUSANDS of plants to choose from.

What is depicted in this flyer is just a very small sampling of some of our many new offerings.

For the first time this season, we will have a NEW selection of about 60 varieties of sun and shade perennials available at the farm. Most of these new varieties are not available at the big box stores and rarely available at garden centers. Several varieties are native plants that are hardy perennials (Zones 3 & 4) and produce beautiful plants. These plants are sold in easily identifiable containers we believe you will enjoy selecting from when you visit the Farm.

HAPPY GARDENING,

Elaine & Carl
