

Our 21st Season of Helping Gardeners Succeed!

Water Hyacinth

Being recognized by Yankee Magazine (March/April 2019 issue) as one of the Five Best Flower Farms in New England, made for a very busy 2019. THANK YOU! – Our loyal customers, many new customers and the seven garden clubs that attended events at the farm throughout the past season.

This year, Golden Skep Flower Farm celebrates its 21st year open to the public. Through the years, our commitment has been to provide quality plants at reasonable prices and excellent customer service. If you are in need of one plant or are planting an extensive garden of annuals and/or perennials, we are positioned to well-serve you with THOUSANDS of plants to select from.

The plant varieties shown in this flyer are just a very small sampling of the many varieties of herbs, annuals, sun & shade perennials, grasses, flowering trees and shrubs that will be available at the farm. Last year, we introduced a new line of wicked hardy (Zone 3 & 4) and beautiful varieties of sun and shade perennials. Many of the varieties consist of New England and Appalachian woodland plants as well as New England meadow plants. Woodland and meadow plants are easy to grow and provide food as well as shelter for pollinators such as butterflies, honeybees and many more. Planting a number of these varieties in your garden will also be beneficial to the environment. These plants were so well received by our customers that this year, we are doubling the available varieties being offered. Most of these varieties are not available at the big box stores and rarely available at garden centers. For Mother's Day (May 10th), our greenhouse will be bursting at the seams with a beautiful selection of annuals such as Martha Washington geraniums, variegated geraniums, Proven Winners and many more. We hope you will be pleased by the quality and expansive offerings of plants. We recommend you shop early for the best selection. Water garden plants will be available at the farm the weekend of May 23rd. A large selection of hardy garden mums and other fall perennials will be available in the late August, early September time frame.

Our Garden Shed Gift Shop will again be chock full of unusual home and garden merchandise – both vintage and new. In late fall, we built a small shed near the garden entrance for garden necessities, organic plant fertilizers and soil amendments. Garden soil amended with an organic fertilizer will help your plants thrive. Another change you will see when you visit the farm this season are the many new plant tables full of plants in our expanded sun-loving perennial sales area. You will also find that all herbs will be on display in the smallest of our two greenhouses known as The Herb Hut. We look forward to seeing you all this season at our circa 1740 homestead.

HAPPY GARDENING!

Elaine & Carl
