

Our 22nd Season of Helping Gardeners Succeed !

Dear Gardening Friends,

As we begin our 22nd season at the Farm, we hope you and your families are safe and healthy. THANK YOU to everyone who visited the farm this past season, helping to make it another successful year both in terms of sales and in the many pleasant conversations and exchanges of ideas with fellow gardeners.

You can shop with confidence as we will continue to comply with COVID-19 public health regulations including requiring masks, social distancing and outdoor gathering requirements. We will also continue to have an outdoor sales checkout station, order pick-up area, a limit of two people at a time in the gift shed, recommended use of credit/debit cards (no signature required) and hand sanitizing stations.

Spending time outdoors at our farm in our expanded and spacious sales areas and in your own garden with family members both young and old, one can connect with nature in many ways and that can go a long way in helping to bring harmony to a household during these challenging times.

The plants shown in this flyer are just a small sampling of what will be available at the Farm. The biggest change you will notice when you arrive at the Farm is how we have put together an exciting and expanded collection of beautiful plants available for your gardening pleasure.
